Preparing for an Emergency

INTRODUCTION

Abbotskerswell Parish Council has, in conjunction with the District and County councils, formed a sub committee to assist locally with emergencies in the parish. This leaflet from the Emergency Planning Committee is a summary of important information for you to keep handy in case an emergency does strike the village.

Remember, in the event of an emergency overwhelming the county's emergency services, the best people to support us are each other.

Preparing for an Emergency

The following is a short checklist of the things you should be thinking about now, in case there is a possibility of an emergency – keep this list handy:

Preparing for an emergency

1. Keep all family / friends' home and work phone numbers with you. Select someone living away to be your contact point. If anything happens, contact them.
2. Ensure your mains electrical, gas and water valves / switches are well marked and you can turn them on and off.
3. Get a member of the family on a first aid course.

If an emergency strikes

4. Listen to local radio. Follow the advice of the emergency services.
5. Check for immediate dangers like smoke, water, unsafe buildings.
6. Assist vulnerable people near you.
7. Give first aid and get help.
8. Prepare to evacuate yourself, family, vulnerable neighbours and pets. If you have time and it is safe to do so, take your emergency bag.
9. Follow your personal contact plan (see point one).

If you are evacuated and you have time

10. Turn off all services like electricity, water and gas.
11. Drain the water off if you can.
12. Pack an emergency bag with bottled water, radio and torch with spare batteries, your medication and first aid kit.
13. Pack what you would need for your own/family and pets' use for up to two days, including warm clothing, duvets and blankets, good waterproof boots, food and cash.
14. Bring cards, musical instruments, or small games for keeping children (and adults) amused.
15. Bring your pets, but anticipate that they may be kept elsewhere.
16. Lock the house up.
